STAINLESS STEEL FOR 5
MONTHS

CASE
PRODUCTION:
200 CASES

VINEYARD:
FONDUGUES
PRADUGUES

ALCOHOL: 12.5%

Our first ever rosé, Vin de Fleurs was grown and produced in Saint-Tropez at Fondugues Pradugues a winery and vineyard that practices biodynamic & organic farming. This unique site is located in Ramatuelle's plain, 800 meters from the Mediterranean Sea giving this wine salinity & minerality.

This wine was harvested in September, aging in stainless steel for 5 months. The wine was made with Indigenous yeast and no sterile filtration.

Tasting Notes:

Texturally thrilling, a blend of ripe citrus, fresh white peach and the stony minerality akin to great white Burgundy.
